Farmington Country Club 2020 Updated Guidelines

We are open the 2020 season in compliance with the Governor's Covid-19 Reopening Guidance in order to offer a safe environment for our golfers and staff members.

With our opening comes a new set of protocols for safeguarding golfers and employees. These protocols are unique to Farmington Country Club, but follow the Governor's guidelines and much of the National Golf Course Owners Association's Park & Play model. All golfers are expected to follow the guidelines below.

OVERVIEW

- Tee times will be spaced 10 minutes apart to help distance groups on the course and reduce capacity.
- The driving range is closed.
- No rental sets or sharing of clubs is permitted.
- Please adhere to social distancing guidelines and maintain a minimum distance of six feet from employees and other golfers. Please keep this in mind as you make the turn and wait safely near the 9th green until the first tee is clear.
- Play your round (9 or 18 holes) and then leave upon completion.

PRIOR TO YOUR ARRIVAL

- All tee times must be pre-booked, whether online (www.FarmingtonCountryClubNH.com) or by calling the clubhouse (603-755-2412).
- The upper parking lot will be closed to accommodate for cart cleaning and staging area. Please park in the large, lower lot for the time being.

UPON YOUR ARRIVAL

- Please arrive for your tee time no more than 15 minutes prior to your booked time.
- Call the clubhouse (603-755-2412) to check-in, make to-go purchases or add a credit card or money to your account. Placing a credit card on file or having money on your account is appreciated as it will help us limit the number of transactions that will require handling cash or credit cards.
- The driving range is closed.
- If renting a cart or would like to purchase to-go amenities, please proceed to the clubhouse.
- Cleaning supplies will be readily available to sanitize your cart.

FOLLOWING YOUR ROUND

- Trash receptacles are available near the clubhouse to dispose of any trash you may have.
- Please return the cart to the marked cart return area and sanitize your cart before leaving the premises.

NOTES

- Our new Point of Sales (POS) System allows customers to place money on their account for quicker, smoother cashless transactions. This also helps us limit the number of cash transactions for our staff.
- With the ever-changing nature of Covid-19, Farmington Country Club reserves the right to alter these rules at any time.

We appreciate your attention to these guidelines and feel free to call the clubhouse (603-755-2412) or email (info@farmingtoncountryclubnh.com) with any questions or concerns.
